> GREAT POPULARITY! The Sacred Melodeon,

BY A. S. HAYDEN, HAS uniformly given, so far as the Publishers know, entire satisfaction to all churches and Musical Associations that have used it. Scores of practical teachers have praised the book and have it now in their schools. But the fact that it has reached so many editions, has attained a sale of between One Hundred Thousand and Two Hundred Thousand Copies,

and is now in larger demand than ever, has, if anything can, take the work out of the domain of criticism. Two reasons will chiefly account for the great suc-Two reasons will chiefly account for the great success of this volume:

First—The character of the Work. It represents a new and greatly improved system of notation. In it much that is abstruce and difficult in this delightful science, is so simplified that months are made equal to years in the common way of learning the practice of musical art.

Second—The Quality and Style of Music. Many new pieces, destined to please as long as music lasts, may be found on its pages, and also many of the old and tried melodies, hallowed from associated recollections of sanctuary delights, and far more welcome to the heart of the worshipper than others frequently stituted for them.

The mechanical execution of the work is superior

bstituted for them.

The mechanical execution of the work is superior a together to the majority of Eastern Music Books, and the price much lower.

The work may be had of Booksellers in all the principal etics and towns, or may be ordered direct from the Publishers.

OF MEDICINE! This Work has been condensed into One Volume Large Octavo, 800 Pages, with 200 Illustra-tions of Plants, etc.

And is adapted and expressly intended as a FAMILY GUIDE TO HEALTH! and for the treatment of the diseases to which "flesh is heir." Simple remedies and the common-sense mode of treatment insisted upon, render this volume one of inestimable value to all families of ordinary intelligence, who would preserve health, or avoid disease and the expense often needlessly incurred in consequence. The Publishers have yet to learn of one family having become dissatisfied with their purchase after using the book. Obtain Beach's Family Practice, and you will have a physician in the house ever ready to be consulted. The work is bound in substantial leather binding, and may be had from us by mail, post paid, for FOUR DOLLARS in advance, or obtained from Booksellers. Better evidence of the value of the work need not be furnished than the facts stated above, as to its sale, etc., etc. Each copy contains fac-similes of the gold medals received by Dr. Beach, and testimonials from distinguished physicians in Europe and America.

But, unfortunately for the Episcopalians, this is not their first offence. At the meeting of the American Tract Society, where the effort is annually made by the John Jayites to sectionalize, and therefore destroy, the usefulness of that estimable and beneficient association by the issue and dissemination of antislavery tracts, the Episcopalian members of the society have always maintained conservative grounds and contributed largely to the defeat of the abolitionists. The speech of a distinguished bishop at the last anniversary of the Tract Society, in determined opposition to the publication of abolition tracts, had considerable influence in frustrating the schemes of Cheever and the other pulpit politicians, and therefore gave them unpardonable offence. Gov. Harris' message shows the finances of Tennessee to be in excellent condition. The balance in the Treasury is \$180,303; and the receipts of the last two years have exceeded! the expenditures \$143,807. The aggregate taxable property of the State is \$377,208,641; being an increase, since the 1st October, 1857, of \$76,849,830.

THE ACTUAL INDEBTEDNESS OF THE STATE is \$3,241,606. Of this sum \$1,228,356 is for stock in turnpike roads, which is probably worth but a small fraction of the cost; \$835,250 is for stock in railroad companies, worth probably half that sum; \$1,125,000 is for stock in Banks, worth at least this sum; and \$655,000 is for bonds issued for the erection of the State Capitol, and for the purchase of the Hermitage. The other liabilities of the State being principally for indorsements of bonds of railroad companies, amounting to \$12,799,000.

The Corn Crop-The Pork Trade Prospectively

During the past week we have received information from various localities in the West regarding the present state of the corn crop and not a little about hogs. Without going into detail we will give the points in a brief summary. In this State, except in light sandy soils, the corn crop is much better than was expected a month ago, and, generally speaking, is a full average, taking into consideration the great breadth of land planted. In light sandy soil, however, it in July, and in all such cases the yield will not be over half an average; but the quantity of such land is small, and consequently the effect will not be felt. In Indiana it is excellent, and in all the Wabash country it is unusually heavy, the ears being longer and better filled than usual. Indeed state; in all parts the crop appears to be satisfac- that his estate was probably insolvent. A good crop of wheat has been sown and

it looks well.

In Illinois, except from a few counties in the Northern portion of the State, where it was in-jured by frost, the crop is fair, in many places ood, and in all good, rich corn lands, heavy. It s not yet fully matured, but the weather is very

the expectations of the farmer. In lowa, there is considerable variety in the prosecuted crop; in the Northern portion of the State we hear of the injury done by the frost about the Ist Court of September, and some represent it serious, whilst others say it was but slight, as the stalk and ears were not injured, only the leaves. We have not heard from this State fully enough as yet, so as to be able to speak of this crop very definite-

In Missouri the crop is pretty good, though like Iowa, we have not heard from many points in In Kentucky the crop is represented a fair av-

In Virginia the corn crop, we learn, is a partial failure, and not over two-thirds of last year's

We have no very definite advices from Tenessee, but from what we have, our impression is cop is moderately good, though in some places it is short, consequent upon the drought.

In all the places we heard from hogs are geneshowing that the owners feel satisfied they are fally able to feed all they have. The reverse was the case at this time last year. In many places the farmers have been feeding with green corn since the 1st of September. In some parts of Indiana, stock hogs are scarce and in demand, as high as 41/2c gross having been paid for them.

There seems to be no speculation going on, and we hear of no contracts being made. The impression is general with the farmers that they will obtain high prices for their hogs, but all those who went in so freely last fall are now holding off. The indications are that the number of hogs brought to market will be as great as last year, and that their condition will be far better.

In this market there have been no contracts final order or judgment as to authorize an apmade so far as we have heard, though there are buyers for November at \$5.75, and we understand that one party offers \$6, but it is generally supposed that they want them to fill those contracts made at \$6 25 @ \$6 75 last season for delivery the coming November

The present active demand for bacon, and bareness of the market of hams, together with those contracts, it is supposed, will make the market open high, probably \$6, as many think, but the greater majority of dealers are determined to hold back until prices rule at a safer point, and this point is fixed in their minds at \$5 or there-

POOL BETTING.—Betting in "pools" is all the go now on Kentucky race courses, and few persons ever think of "laying a dollar" in any other way when more than two entries start for the se. The system is very much like that of ok making" in England, and often gives "outsiders' an opportunity of winning handsome pur-ses by risking a small sum. To illustrate: Five are named to start for the purse-Lavender, Red Oak, Endorser, Ellen Doyle and Glyceria. A pool of \$200 is first offered, for instance, as our end Maj. Balee will next week for the Wood-wn races. The Major in his soft and persuasive voice desires to know what will be offered for the first choice. Mr. A., confident of his judgment and strong in his hopes, gives \$100 for the first choice, and no one bidding more he selects, say Lavender, and, therefore, bets him against the field. Mr. B. buys second choice, say Red Oak, at \$60, thereby betting \$60 against \$140 that his urchase wins. Mr. C. takes Endorser at \$2 so he bets \$25 against \$175 that Endorser rakes firmed down the pile. D. selects as the fourth favorite, Ellen Doyle, for which he pays \$10—thus wagerin \$10 against \$190, and E. ventures a V for Glyceria, the fifth and last entry. If she win he rakes down \$195—clear gain for his investment of five dollars. If an entry is sold for a race and does not start, the purchaser has his money re stored, so that he cannot lose without having had Louisville Courier.

Arrival of the Overland Mail. St. Louis, Oct. 9.—The overland mail arrived last night. Some San Francisco papers evince a disposition to make it appear that Broderick is a victim of a conspiracy, but the most prominent ones assert that the duel was conducted in strict accordance with the code of duello. Broderici's pistol went off before it was raised to a line with his antagonist. Terry's shot took effect two inches from the right nipple, carrying away a part of the breast bone. Broderick suffered intense agony from the time he was shot till he died, when the mail left two hours after his death was announced. All the flags of the city were at half mast. Emblems of mourning are beginning to

appear in all parts of the city.

The election at Nevado Territory took place on the 7th ultimo. The Constitution framed in July was adopted by 400 majority. The full Territorial tight respectively. ritorial ticket was elected, headed by Isaac Roup,

Victoria dates received to the 7th ult. The Colonist says the U. S. troops on San Juan were throwing up a fortification on Summit Hill, below Hudson Bay Company's station.

Portland, Oregon, papers of the 10th ult., publish a reply by Harney to Douglas' letter of Aug. 13th, in which he accepts Douglas' explanation as an apology for past conduct, but evidently reposes no faith in the Governor's professions, and declines to withdraw the troops from San Juan until the pleasure of President Buchanan is known on the subject. There is little business doing at San Francisco. The market is sensibly weaker.

CORN.—The Cincinnati Gazette says:

There is very little old corn arriving, and this article will very soon be entirely out of market. A sale of new is reported at 60c. A lot of new was received to day by the Indianapolis and Cinbushels which the company has contracted with one party, at a point east of Indianapolis, to carry to this market during the current month.

The several companies, altogether, numbered about three hundred persons, white and colored. Texas is gaining from Kentucky many excellent citizens. In this action the appellant obtained an injunction restraining the appellees from the enorcement of a judgment which had been rendered against the appellant upon a note he had executed to Forline for the purchase money of a lot in the town of Hodgenville. The grounds of the injunction were that the contract of sale and purchase was executory; we have no complaints from any portion of that that the title of the owner was defective, and appellant prayed that the appellees might be compelled to exhibit the title of their ancestor to the lot in question; that the contract might be specifically executed, and for all other prop-

The record shows that the action was left still pending at the time the order complained of was made, and it may be that the very relief asked by the appellant in his original petition—the exhibition of a valid title and a specific execution of the contract—has been already awarded him by the judgment of the rally fed with great care and industry, and it is exceedingly difficult to purchase stock hogs, a perpetuation of the injunction, or even a reinstatement of it, would be anomalous, if not

The "Angel Alice."

The "Angel Alice."

We have recently heard, upon the best authority, of a touching story of a very indigent family, consisting of an invalid widow, who had lost her husband by a railway accident, and four children, the eldest of them but nine years old, and all of the mill. They resided at the lower end of Eighth street, and after suffering very greatly, and being for weeks on the brink of starvation, they suddenly received relief from an unknown source. A little girl came to their desolate home with a large girl came to their desolate home with a large

THE VESPER GAS

AIR LIGHT, The Cheapest, most Brilliant, and most Convenient Artificial Light in the World!

THE Vesper Gas Light has won for itself a reputation for elegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixture is so simple that it is not lable to get out of order, and a child can manage it readily. The gas burned in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced by those who have had it in constant use for months, as mest pleasant to the eye while reading or sewing, there teing no flicker or unsteadiness in the flame. The V sper Gas Light is portable, and can be used in towr or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single-light burner to the most costly chandelier. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single-light burner to the expensive chandelier, are miniature gas-works in themselves. They are sold at prices which do not exceed the cost of the ordinary gas fixtures of similar style and ornamentation. A price list will be sent to any address on application.

MERCHANTS

visiting Louisville should not fail to procure the Vesper Gas Fixtures for their stores.

visiting Louisville should not fail to procure the Vesper Gas Fixtures for their stores. Churches, Hotels, Public Halls, and Private Residences

throughout the State can now be fitted up with these elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of such piaces and to the comfort of the home circle, and which heretofore could be used only in those favored districts embraced within the coalgas limits of large cities.

The limited space of an advertisement precludes the insertion here of the numerous testimonials of approval we have received from all quarters. Suffice it to say, scientific men and others who have examined and thoroughly tested the merits of the Vesper Gas Light, pronounce it the best and cheapest artificial light now known.

IF The proprietor respectfully requests responsible merchants in every town and county in the State to correspond with him, believing they will find it to their interest to aid him in introducing this unequaled light to their customers.

OPENING OF THE COURSE.—The regular CPENING OF THE COURSE.—The regular course will open on the 18th of October, and terminate on the last of February. Students are earnestly advised to be early in attendance, especially those who expect to be candidates for graduation; as credit for a full course cannot be allowed unless the pupil matriculates at an early period, and observes regular attendance on the lectures. Clinical lectures will be delivered at the Commercial Hospital and City Dispensary during September and October, previous to the commencement of the regular course. The public Commencement will take place early in March, with as little delay after the close of lectures as practicable.

At the close of each session, two or three graduates

as practicable.
At the close of each session, two or three graduates will be elected to act as Resident Physicians and Surgeons in the Commercial Hospital for the ensuing year.
Two resident Physicians will be appointed to St. John's Hotel for Invalids, and the graduates of this college can compete for the places.
Two advanced students will be elected at the close of each session to act as Resident Pupils at the Dispensary for one year, who will have rooms supplied them in the College building.

The student can take one or more tickets, as may

The student can take one or more tickets, as may suit his purposes.

The dissecting ticket is optional, except that the candidates are required to take it once.

Students, on arriving in the city, by calling at the College (on Sixth street between Vine and Race.) will be conducted to good boarding houses, where they can be accommodated with board, at from \$2.50 to \$4.00 per week.

It is known by a few individuals in the counties of Jefferson. Shelby, and Oldham, that I have a remedy that effectually cures Hooping-Cough. If there are remedies in America or Europe that cures, it is not within my knowledge, (except the one I use.) Physicians tell the families they attend it can't be cured. I have no doubt they are candid in what they state. To get the medicine in use, and lull to sleep a deep-rooted prejudice, the faculty are invited to get the medicine, and save the little innocents whom they attend, and tell them no more it cannot be cured. One dollar will pay for two bottles, which is a sufficiency for one child. This medicine can be conveyed to any part of the United States by express for a mere trifle. HAVING purchased the residence and school property of Prof. E. A. Grant, I am glad to announce to my numerous patrons and to the public, that I am now enable to continue my School with increased advantages. The school building is a large and commodious one, built upon the most approved plan, well ventilated and furnished with desks of the latest style. The location is a pleasant one, in the most retired part of South Frankfort. With these increased facilities, I hope to establish a School with such a system of discipline and instruction as will commend itself to all patrons and friends of a thorough classic education. Have ample accommodations for twenty-five boarders, which number will be received into the Principal's family.

N. B.—A WORD OF EXPLANATION to those who have known us under the style of EVANS' & Co. The Business located by us at No. 677 Broadway, New York City, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name, to increase their trade—and to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future, we shall use the style of D. W. EVANS & CO.

and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

IMPORTANT NATIONAL WORKS, PUBLISHED BY D. APPLETON & CO., 346 & 348 Broadway, New York.

School Year begins Second Wednes-day in September. price, by mail or express, prepaid: THE NEW AMERICAN CYCLOPÆDIA: THE NEW AMERICAN CYCLOP ÆDIA;
A popular Dictionary of General Knowledge. Edited by George Ripley and Charles A. Dana, aided by a numerous select corps of writers in all branches of Sciences, Art, and Literature This work is being published in about 15 large octavo volumes, each containing 750 two-column pages. Vols. L., II., III., IV., & V. are now ready, each containing near 2,500 original articles. An additional volume will be published once in about three months.

Price, in Cloth. \$3; Sheep, \$3 50; Half Mor., \$4; Half Russia, \$4 50 each.

The New American Cyclopædia is popular without being superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh and yet accurate. It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics on which they speak. They are required to bring the subject up to the present moment; to state just how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views; the biographical notices not only speak of the dead, but also of the living. It is a library of itself.

eing a Political History of the United States, from the organization of the first Federal Congress in 1789 to 1856. Edited and compiled by Hon. Thomas H Benton, from the Official Keeords of Congress.

The work will be completed in 15 royal octavo volumes of 750 pages each, 11 of which are now ready. An additional volume will be published once in three months.

THESE Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood; unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.
